

Writing Custom Sink Connectors for Pulsar I/O

Ricardo Ferreira

Principal Developer Advocate, Elastic

Who am I?

- Principal Developer 🥑 at Elastic
- Community, Developer Relations
- Before Elastic: Confluent, Oracle, Red Hat
- Observability, Streaming Systems, Databases, 💻 Java and Golang
- <https://riferrei.com>

If you Need a Pulsar I/O Crash Course

The poster is for a session at the Pulsar Virtual Summit North America 2021. It features a black background with a blue sunburst graphic behind a circular portrait of Ricardo Ferreira. The text includes the event name, hosts (Stream Native and Splunk), the session title, the speaker's name and title, the date and time, and the Elastic logo.

PULSAR SUMMIT

Pulsar Virtual Summit North America 2021
